BRAZIL GAMES EXPORT PROGRAM

The Brazil Games Export Program, is the export program created by the Brazilian Game Companies Association, ABRAGAMES, in partnership with ApexBrasil, the Brazilian Trade and Investment Promotion Agency.

Our goal is to promote the Brazilian Game industry internationally, developing new business opportunities for our companies.

The Brazil Games Program also promotes Brazil as the hub for business in Latin America and invites buyers, investors and publishers for BiG Festival, Brazil’s Independent Games Festival, the most important international indie games festival and the hub for international business in Latin America.

ABRAGAMES BRAZILIAN GAME COMPANIES ASSOCIATION

Abragames, the Brazilian Game Companies Association, was founded in 2004 and represents Brazilian studios developing games in various platforms.

Besides catalyzing the game production in the country by training and promoting expertise, Abragames aims at making Brazilian creativity and technology available to the main players of the international game industry.

APEXBRASIL

The Brazilian Trade and Investment Promotion Agency (ApexBrasil) works to promote Brazilian products and services abroad, and to attract foreign investment to strategic sectors of the Brazilian economy. The Agency supports more than 12,000 companies from 80 different industries, which in turn export to 200 markets.

ApexBrasil also plays a key role in attracting foreign direct investment to Brazil, working to detect business opportunities, promoting strategic events and providing support to foreign investors interested in allocating resources in Brazil.

We came from indie, AAA and web, with years of experience in game dev. We want to create experiences that players can keep playing, as long as they want. Our team is 100% remote and we work with professionals around the globe. There are no fancy words of what we want to do: we want to create games that old and new generations will play. Our Values: We are ambitious enough to aim for the stars, but also humble enough to always improve and learn together with everyone in our studio and our players. Diversity and culture are part of our community and our ambition. Our Quest: Create games that players want, but surprise them in every way. In a very positive way! Being part of the community, playing with them and understanding their biggest passions. Our Vision: Create experiences that players will remember for generations to come.

Alopra is a company formed by artists, animators, advertisers, filmmakers and designers. We don’t just have a nice office with creative people, beer, paint splatters on the walls and cool action figures everywhere … ok, ok, we have these things! However, we know that no work happens without organization, management and responsibility. We don’t limit our creativity, but we have procedures to organize it. We’ve learned this from more than 100 years of producing adverts, commercials, entertainment and content, as well as both creating and producing our own IPs. From creating the simplest of illustrations to developing characters and even designing complex 2D and 3D animations, we’ve done this so many times and yet we always have the energy and the willingness to see each project as a new challenge. By the way, you read it right, “more than 100 years”. Since we were established more than 15 years ago we have accumulated the experience of our unique team members. We believe in the power of ideas and that connected minds catalyse change.

Animation Services: Creation, Development and Production
We make your project gain life! We understand the whole animation process and at the same time we have a detailed knowledge of each of its parts. We offer services to both the advertising and entertainment industries. Because of our experience creating our own IPs we have the ability to co-create, manage and work on your projects. Since we develop our own IPs we fully understand the meaning that your project has to you.
Aoca Game Lab is a Brazilian game dev company founded in 2016. YUKI - MRCADE MODE
YUKI is an energetic VR bullet hell game set in an incredible anime universe. Step into the wild imagination of a child and fly through multidimensional worlds holding the action figure of their favorite character, Yuki, the space ranger, who, outnumbered by the evil Yokaliens, counts on the helping hands of those who can still feel the creative warmth. As you embark on the multiple dimensions of this enthralling spatial VR-designed gameplay, you’ll find yourself getting into a smooth choreography with enemies, bullets, and scenery elements. Collect power-ups to become stronger as you face procedural-generated levels that surprise you every time. The more you play, the more powerful you become, and better are the chances you’ll make it through. After all, a child’s imagination can defeat evil, and the only way to save the universe is to play like a kid!

Digital Synapsis was born in 2014 when for us game production seemed tangible, but hardly real. In a bet on our abilities, we left our jobs to work in the games area. Since then we have been creating projects, participating in several Game Jams and developing applications and software, accumulating experiences and new learnings. We are a concise and well-integrated team, making the design, development, internal communication fluid, resulting in a quality final product. We aim to plant our flag in PC gaming territory and eventually expand our borders to current platforms, always aiming to have fun for fun! We believe that well-organized processes, defined deadlines and properly assigned activities naturally lead to a successful product.

Winged
An autorunner platformer that unlocks books! And the books are still part of the gameplay, it is through them that the avatar gains new “wings”, a metaphor for the concept of “wings of imagination” that books teach us. This game innovates by mixing children’s literature with games. The game is designed for mobile devices (iOS and Android). Instead of coins, the player needs to collect a specific number of sheets of books to open the library and gradually enable adaptations of classic books from world literature in the public domain.

Genres: Auto-Runner, Side-scrolling, 2D, action-adventure
Platforms: Mobile (iOS/Android)
Game Release Date: 09/2023

Kaomoji
Kaomoji is a Casual Puzzle Match-3, which challenges players to use logic and reasoning to match blocks of kaomojis, a Japanese emoticon style created through a mixture of Japanese and Western characters. It is through matching kaomojis that the user can progress through levels, earn points and unlock rewards, such as exclusive kaomoji stickers that can be downloaded to a phone and used as stickers on social networks such as Whatsapp and Discord. With a relaxing theme, the game is perfect for relaxing moments.

Genres: Casual Puzzle Match-3, logical reasoning
Platforms: Mobile (Android/iOS)

We are DX Gameworks, here your game is our dream! DX Gameworks is a Brazilian Multinational company with three regional offices in Brazil (Sao Paulo, Manaus, and Brasilia) and two international Offices, United States and Portugal. Our team is made up of passionate people that love games, tech and are highly capable of creating, developing and publishing successful games. Founded in 2020 with support from Xbox Brasil and investment from Bertha Capital, DX Gameworks is a developer and publisher ready to help your game succeed providing structure, development services, design advice, localization, testing, porting, post launch support, PR, Marketing and Community Management.

WHAT WE DO

Publishing - Your game our dream. We are here to help finish your game providing not only funding but development services, porting, Project management, plus marketing and PR, all without recoup. Our no recoup policy means that whatever we invest in the game won’t get taken from the revenue share of the game, we share the development, we share the passion, and we commit to making the dream a shared reality. Porting - Let’s take your game everywhere, from PC to Consoles, mobile or streaming, we love getting games to a broader audience. Our goal is to make the developers, publishers and audience happy with the game experience no matter where they chose to play. We will take care of Engine update (Unreal, Unity or proprietary), UI and UX adjustments, controller support, performance optimization, CQA and Certification and finally post launch support. Your game on multiple platforms is our dream and honor.

Development - Have an idea, pitch, client, or IP and want to turn it into a full game for PC and Consoles? Let’s do it! We will start with an initial concept pitch and move to a Concept Game Document and finally to a full project GDD with burn rate and milestone definitions. You have the vision we handle the production!

Here we highly value respect, transparency, responsibility and the ethics applied in each step during the process of creation, as well as commitment and innovation in each project.

**Hired 2 Die**
here is a thin line between our perception of reality and reality itself. In a strange twist, the perception of ordinary human beings is corrupting reality, creating beings known as Distortions. These Distortions commonly appear in places where the human psyche is at its breaking point, and the stress generated by this phenomenon manifests as strange objects and dangerous creatures. A long-dated, mysterious company named Intersection claims to have the solution. By selecting a few individuals capable of perceiving and dealing with Distortions, they can keep the threat to a minimum.

Fira Soft is a Game and App Development Studio with extensive experience in developing highly customized experiences on demand. With the experience and resources we obtain from our contract work, we develop our own games, like Move-it! The Game of Charades and Kriophobia. We had the opportunity to develop Advergames for major companies and public sector in Brazil, such as the Public Prosecutor’s Office National Council. Since then, we’ve met the demands of several companies and clients, we’ve developed awarded serious games and apps, Augmented Reality games and Virtual Reality medical applications, all carefully planned according to our clients needs. Now, Fira Soft qualifies to reach new heights, aiming to also be one of the most important developer of independent games. From the experience and revenue gained from developing games for hire, we are currently developing our most ambitious project, Kriophobia.

Kriophobia
Kriophobia is a survival horror in third person. The game tells the story of Anna, a lonesome geophysicist who finds herself trapped in a mysterious island in Russia, where the cold is deadly. As she struggles for survival against things beyond her comprehension, her past secrets are revealed. Little does Anna know that the island conceals a disturbing past under the snow, and to make sense of it all, she must face buried memories and confront her innermost fears.

Paper’s Grade, Please!
How smart do you think you are? Hopefully you have enough brain power to grade the answers from your students! Kids say the funniest things and it is up to you to catch what is right and what is wrong. Give students A’s or F’s based on their answers. Careful, not all of them are geniuses so it is up to you to catch the wrong answers! Students will try to be funny and outwit you with your answers. It may be funny, but it will still be wrong! Fail that kid! We don’t appreciate their attempts to be comedians. Make sure they know math, english, or geography. Some of the answers might even have you feeling like a smart, brainy professor. Help these kids out and prep them for college - you are on your teaching journey!

The game takes place in a house in the Brazilian Amazon Region, where energy generation is needed. It is a portrait of a typical house in the Amazon region of a small rural producer. The visual representation is very simple, with semi-realistic aspects. The game has a unique setting, characteristic of hyper casual games, showing the house and the Biodigestor in a playful way. For future effects, new scenarios are proposed that make reference to the use of the Biodigestor in territories of other continents. The game is made up of continuous progression phases where different objects are dropped to feed the Biodigestor, which will generate gas for energy.

Genres: Hyper Casual. The choice of this genre by the technical team was based on the future possibilities for the gameplay and the launch of new phases to be expandable, without interfering with the project’s concept.
Platforms: Android and iOS versions

Maqna is a Brazilian game development studio based in Florianópolis, Santa Catarina, Brazil, creating games for about 11 years. The company has developed many games with Unity 3D and published on the main mobile platforms. We have a game for PC and Xbox One available on early access on the Steam platform and developed using the Unreal Engine 4. Last year we release Ukko & Guará: Stellarbound on Steam, a friendly puzzle game for anyone. The company has more than 13 games on the portfolio and many more developed for our clients. Maqna has started to develop and test hypercasual games since 2020 with different publishers. Our most successful game has up to 7 million downloads on Android. Now we are developing our own multiplatform IP aside our other projects and outsourcing.

**Ukko & Guará: Stellarbound**

Ukko is a Finish reindeer and Guará is a maned wolf from Brazil. One day, a shooting star enters Earth’s atmosphere and breaks in two parts. One part falling in Finland, close to Ukko. The other part falling in Brazil, next to Guará. From that point on, the life of both changed completely.

Bedtime Histories / Beliche Voador
BEDTIME HISTORIES is an interactive stories app which aims to teach history in a unique way, humorously narrating events and historical figures. It’s bedtime at the Silva household. While they brush their teeth siblings Vivi and Nuno talk and Nuno complains that Dad hadn’t taken them to the mall like he had promised he would. Vivi says they can go another and that she’s thankful they live in a time when at least there are shopping malls. That makes Nuno wonder about what Brazil was like before there was malls.

No Place for Bravery
No Place for Bravery is a 2D Top-Down Action RPG that uses the most striking features of its genre as a background to tell a story about rampant violence and parental abandonment. The player will control Thorn, an old warrior lost in his ambitions who will travel the world in search of his lost daughter. In addition to the high quality visuals, coupled with intense combat moments, the player will be subtly put in increasingly intense moral dilemmas that he will have to deal with. These conflicts will lead to four possible endings, each demonstrating how far Thorn and the player went to achieve what they wanted.
