Ana Bolinha
Yes, the world is rounded! At least in Ana Bolinha’s universe, where there’s nothing that shines more in her eyes than the round roundness. Ana Bolinha is a 2D animation series, which was produced in its first season with 13 episodes of 7 minutes each. In the garden of a small square in the neighborhood, Ana Bolinha and her friends occasionally find round objects that are not part of their daily lives. When this happens, her heart beats with emotion and the investigative curiosity comes into play. What is that? What is it for? Where did it come from? The journey in search of answers goes far beyond objects, as the protagonist is faced with issues of values such as friendship, companionship, respect for others and differences. Ana Bolinha invites us to discover that the world is rounded, yes, but it is also much more than that.

BEJJ: Jiu-Jitsu Game
At Smash Mountain Studio we have a different idea for “Fighting”: it isn’t about brute force or technique. Fatigue and strategy are key elements. In addition, not always it is a question of life and death or KOs; you can win by points or submission. With this in mind, we are developing the “BE” Games for martial arts enthusiasts. We’ve started with BEJJ, a pioneer game for a large community with a pent-up demand for a +dedicated game. UFC was created to show the world that Brazilian Jiu-Jitsu was the most efficient Martial Art. This addiction of the community and its lifestyle boost User Acquisition. This game is the spine for the “BE” Games which will explore the created original Card-Battle Mechanics. Its Design allows people not yet familiar with Martial Arts to learn or better understand some of them as they play through the animations. Experienced Martial Artists can have a great experience identifying elements from the real sports. However, the focus is on PVP and Esport. We are refactoring for WEB 3.0.

Snookey
Snookey is something different. Try your best to make your highest score in this original game. It mixes snooker mechanics with air hockey mechanics and it adds a bunch of cool elements to entertain you. Your objective is to score by hitting the balls inside the opposite pockets. If they get inside your side pockets, then score is subtracted. To take a shot, wait until balls hit your wall and take action before they pass midfield. Watch out for obstacles and debuffers that will make your life difficult. Snookey has no end if you manage to keep going!

Drakantos
Drakantos is a pixel art MMORPG that combines fast-paced combat, an immersive story, and more than 21 unique playable characters. Our inspirations come from great games like Chrono Trigger, Stardew Valley, Graveyard Keeper, and Stoneshard.
