Alopra is a company formed by artists, animators, advertisers, filmmakers and designers. We don't just have a nice office with creative people, beer, paint splatters on the walls and cool action figures everywhere ... ok, ok, we have these things! However, we know that no work happens without organization, management and responsibility. We don't limit our creativity, but we have procedures to organize it. We've learned this from more than 100 years of producing adverts, commercials, entertainment and content, as well as both creating and producing our own IPs. From creating the simplest of illustrations to developing characters and even designing complex 2D and 3D animations, we've done this so many times and yet we always have the energy and the willingness to see each project as a new challenge. By the way, you read it right, “more than 100 years”. Since we were established more than 15 years ago we have accumulated the experience of our unique team members. We believe in the power of ideas and that connected minds catalyse change.

Ana Bolinha
Yes, the world is rounded! At least in Ana Bolinha’s universe, where there’s nothing that shines more in her eyes than the round roundness. Ana Bolinha is a 2D animation series, which was produced in its first season with 13 episodes of 7 minutes each. In the garden of a small square in the neighborhood, Ana Bolinha and her friends occasionally find round objects that are not part of their daily lives. When this happens, her heart beats with emotion and the investigative curiosity comes into play. What is that? What is it for? Where did it come from? The journey in search of answers goes far beyond objects, as the protagonist is faced with issues of values such as friendship, companionship, respect for others and differences. Ana Bolinha invites us to discover that the world is rounded, yes, but it is also much more than that.
