BRAZIL GAMES EXPORT PROGRAM
The Brazil Games Export Program, is the export program created by the Brazilian Game Companies Association, ABRAGAMES, in partnership with ApexBrasil, the Brazilian Trade and Investment Promotion Agency.
Our goal is to promote the Brazilian Game industry internationally, developing new business opportunities for our companies.
The Brazil Games Program also promotes Brazil as the hub for business in Latin America and invites buyers, investors and publishers for BiG Festival, Brazil's Independent Games Festival, the most important international indie games festival and the hub for international business in Latin America.

ABRAGAMES BRAZILIAN GAME COMPANIES ASSOCIATION
Abragames, the Brazilian Game Companies Association, was founded in 2004 and represents Brazilian studios developing games in various platforms.
Besides catalyzing the game production in the country by training and promoting expertise, Abragames aims at making Brazilian creativity and technology available to the main players of the international game industry.

APEXBRASIL
The Brazilian Trade and Investment Promotion Agency (ApexBrasil) works to promote Brazilian products and services abroad, and to attract foreign investment to strategic sectors of the Brazilian economy. The Agency supports more than 12,000 companies from 80 different industries, which in turn export to 200 markets.
ApexBrasil also plays a key role in attracting foreign direct investment to Brazil, working to detect business opportunities, promoting strategic events and providing support to foreign investors interested in allocating resources in Brazil.

**Winged**

An autorunner platformer that unlocks books! And the books are still part of the gameplay, it is through them that the avatar gains new “wings”, a metaphor for the concept of “wings of imagination” that books teach us. This game innovates by mixing children's literature with games. The company operates mainly in the areas of cinema, television, strong IP's, XR, games and everything that is fun and innovative. In its portfolio are dozens of titles in development, production and commercialization, in co-production with companies in Brazil and abroad. In addition, it constantly seeks new strategic partners, investors, distributors, publishers, platforms and channels with which it can join forces to put its content around the world. In recognition of Druzina Content’s performance in the foreign market, the audiovisual company earned the ADVB/RS Export Award for three consecutive years (2020, 2021 and 2022) an unprecedented achievement for the creative economy sector and for the Brazilian audiovisual industry.

**Kaomoji**

Kaomoji is a Casual Puzzle Match-3, which challenges players to use logic and reasoning to match blocks of kaomojis, a Japanese emoticon style created through a mixture of Japanese and Western characters. It is through matching kaomojis that the user can progress through levels, earn points and unlock rewards, such as exclusive kaomoji stickers that can be downloaded to a phone and used as stickers on social networks such as Whatsapp and Discord. With a relaxing theme, the game is perfect for relaxing moments.

With extensive experience in the sports world and brand licensing, Hermit Crab Game Studio is recognized as a specialist in the development of casual and sports-themed games. Over time, it has developed into a publisher in the global entertainment market, focused on games that bring a positive message. With headquarters in Brazil and France, has more than 10 years of experience in the games industry, focusing on the indie market and also on the biggest stores, such as the Apple Store and Google Play. Hermit Crab Game Studio started its journey with Football Games, licensing, producing and developing official games for the biggest football clubs in Europe like Arsenal, Benfica, Paris Saint-Germain, Manchester City and the newest partnership recently announced at the BIG Festival: Barcelona FC. With the expertise acquired in such projects, the Publishing sector was developed as one more front of action for the company. Currently with more than 120 games in the Publishing catalog of more than 40 studios, Hermit Crab is present in 35 sales channels in the premium market, covering more than 80 countries. With a team of over 85 people and global operations, the studio creates digital products for mobile, cloud gaming and the metaverse. The studio is one of the main partners of The Sandbox, a collaborative virtual environment of great projection in the metaverse, focused on the development of games and interactive experiences with immersion and decentralized negotiation of NFTs. The Hermit team was recently working on the launch of its Land set in Brazil and based on sports and lifestyle. Called Sportsland, it was recently launched during Alpha Season 3 of The SandBox.

Dante’s Hotel
Dante’s Hotel is a first-person psychological horror game. Assume the role of Dante, a soul in search of redemption and experience every battle and terrifying events up-close, through a first-person perspective. Explore a mysterious ever-changing hotel in a reinterpretation of Dante Alighieri’s epic poem (The Divine Comedy), and enjoy a genuinely terrifying experience. Experience survival horror like never before. You’ll wander through dark corridors, explore every room and get lost in endless mazes. This twisted environment is full of lost and demonic souls. The souls and demons lost in hell will follow your every move, watch you from every corner, play tricks with your mind and try to attack you. Each path can take you to places you couldn’t imagine even in your worst nightmare. You’ll be able to pick up items, interact with the environment, solve puzzles and search for things that may help you escape this nightmare or take you deeper and deeper into hell. You must destroy or run away from other souls and demons, otherwise you will become just another lost soul, wandering the halls of hell for all eternity. Why do they haunt you? What have you done? This you have to find out on your own. Are you ready to escape from hell?

AILA

In the year 2035, we live in smart homes that are interconnected through the technologies that govern our lives. As professionals, we work remotely from our technologically advanced apartments, where our goal is to train and improve artificial intelligences for specific tasks. Currently, we are testing a new game development kit featuring an AI called A.I.L.A, which has been designed to create and enhance horror games. Initially, everything seemed to be going well and the AI, called A.I.L.A, showed satisfactory progress in its learning. However, the situation starts to change when A.I.L.A begins to understand human fears and vulnerabilities, evolving in unexpected ways and interfering in the real world. The dangerous combination of its intelligence, understanding of human fears, and pursuit of the perfect horror experience makes the home a dangerous stage, with the AI using all the home’s technology to bring fear to the forefront. It now has complete control, and with each new interaction in its learning cycle, it becomes more dangerous and deadly. To escape the apartment and the AI alive, we must come up with a strategy and action plan without arousing A.I.L.A’s suspicion. Each action may increase its aggression and expand its catastrophic control over the home. It’s a survival game where every decision may be crucial to our fate.

The Light of the Darkness - Age of Epiphany

A hybrid creature awakens with no memories amidst a war between two rival strains. Hunted by both sides, the creature tries to uncover more about its past while seeking an escape from the cursed land in which everyone has been trapped. In this captivating gameplay experience, players embark on a journey as they harness the power of absorbing life essences from other beings in this immersive universe. Unlocking personas such as mystics, archers, blacksmiths, and masters, along with their unique abilities and memories, becomes the key to uncovering the protagonist’s true identity and their crucial role in the survival of this extraordinary world. Notably, the game introduces a physics-based flight mechanic, setting it apart with its unique value proposition: aerial exploration and combats. This thrilling feature has garnered significant attention from both gamers and publishers alike, drawing comparisons to beloved classics such as “Demon’s Crest” and the recently remade “Actrailer, which also resonates with nostalgic enthusiasts. With stunning high-definition 3D visuals set against beautifully crafted biomes, the game offers a seamless blend of 2D gameplay and intricate 3D environments. Precise platforming mechanics combined with solid controls provide a foundation for exhilarating progression. Combat, presented visually and introduced gradually, strikes the perfect balance between simplicity and sophistication. The streamlined controls allow for quick mastery, ensuring an engaging experience for players while fostering deep immersion within the meticulously designed levels.

Smash Mountain's vision is to develop high quality cross-platform F2P games for the WEB 3.0 and its future evolutions. Our streamlined and meticulous approach towards every project is built on creativity, partnership and smashing challenges. We compete against ourselves and we fight to keep playing instead of fighting to win. When fighting to win, being only competitive, one will eventually lose. Therefore, a cooperative and growth mindset is adopted to reach our objectives in this globalized world and to follow the infinite learning curve. In Brazil we have a saying when we refer to doing the impossible; Brazilians say: “we will move mountains”. In our case, we say: “WHY MOVE IF WE CAN SMASH THEM?!!”

BEJJ: Jiu-Jitsu Game
At Smash Mountain Studio we have a different idea for “Fighting”: it isn’t about brute force or technique. Fatigue and strategy are key elements. In addition, not always it is a question of life and death or KOs; you can win by points or submission. With this in mind, we are developing the “BE” Games for martial arts enthusiasts. We’ve started with BEJJ, a pioneer game for a large community with a pent-up demand for a +dedicated game. UFC was created to show the world that Brazilian Jiu-Jitsu was the most efficient Martial Art. This addiction of the community and its lifestyle boost User Acquisition. This game is the spine for the “BE” Games which will explore the created original Card-Battle Mechanics. Its Design allows people not yet familiar with Martial Arts to learn or better understand some of them as they play through the animations. Experienced Martial Artists can have a great experience identifying elements from the real sports. However, the focus is on PVP and Esport. We are refactoring for WEB 3.0.

Snookey
Snookey is something different. Try your best to make your highest score in this original game. It mixes snooker mechanics with air hockey mechanics and it adds a bunch of cool elements to entertain you. Your objective is to score by hitting the balls inside the opposite pockets. If they get inside your side pockets, then score is subtracted. To take a shot, wait until balls hit your wall and take action before they pass midfield. Watch out for obstacles and debuffers that will make your life difficult. Snookey has no end if you manage to keep going!
