ABRAGAMES BRAZILIAN GAME COMPANIES ASSOCIATION

Abragames, the Brazilian Game Companies Association, was founded in 2004 and represents Brazilian studios developing games in various platforms.

Besides catalyzing the game production in the country by training and promoting expertise, Abragames aims at making Brazilian creativity and technology available to the main players of the international game industry.

BRAZIL GAMES EXPORT PROGRAM

The Brazil Games Export Program, is the export program created by the Brazilian Game Companies Association, ABRAGAMES, in partnership with ApexBrasil, the Brazilian Trade and Investment Promotion Agency.

Our goal is to promote the Brazilian Game industry internationally, developing new business opportunities for our companies.

The Brazil Games Program also promotes Brazil as the hub for business in Latin America and invites buyers, investors and publishers for BiG Festival, Brazil’s Independent Games Festival, the most important international indie games festival and the hub for international business in Latin America.

ABRAGAMES BRAZILIAN GAME COMPANIES ASSOCIATION

Abragames, the Brazilian Game Companies Association, was founded in 2004 and represents Brazilian studios developing games in various platforms.

The Brazilian Trade and Investment Promotion Agency (ApexBrasil) works to promote Brazilian products and services abroad, and to attract foreign investment to strategic sectors of the Brazilian economy. The Agency supports more than 12,000 companies from 80 different industries, which in turn export to 200 markets.

ApexBrasil also plays a key role in attracting foreign direct investment to Brazil, working to detect business opportunities, promoting strategic events and providing support to foreign investors interested in allocating resources in Brazil.

Ilex Games is an indie studio based near Sao Paulo, Brazil. We started developing games in 2003. In that time, we have worked on more than 250 serious games, mainly for education, as work for hire, and we have created 8 original IPs for entertainment games. We focus on creating deep narrative games with psychological and/or esoteric themes. Our team is experienced on creating both PC and mobile games.

Three of our games are available on Steam:
- Soul Gambler (2014) - an interactive graphic novel inspired by Goethe’s Faust; a tragic play written in the 19th century. This is a contemporary and engaging adaptation of the masterpiece.
- Face It: A game to fight your inner demons (2017) - Carefully crafted puzzles in a challenging 3D platformer take the player on a surrealistic journey through a maze of feelings. are monsters and traps, while brighter concepts are the powers you need to beat the levels.
- Lux Ex: Legacy (2022) - Shoot’em up bullet hell abstract game where you are trying to recover data from your soul while avoiding virus and glitches affecting the simulation.

Five of them are under production. Stay tuned!

Indie Hero fundraising process
The Indie Hero fundraising process initially consists of mapping all game development studios and classifying them by maturity cycle anywhere in the world.

Then, a selection of studios capable of delivering quality projects is carried out, where each one is categorized by sectors and receives a score referring to the sum of these characteristics. This process allows us to make segmentations based on investment thesis.
We have built a structured process of technical risk management analysis, which allows you to maximize the chance of investment through all the historical success factors in a single report in the gaming market.

The first game-exclusive incubator in Brazil, Spcine Game supported the development of 8 projects in 2021 with a call for another 5 projects in 2022. Through an infrastructure with training and mentoring support, the Spcine game incubator was created to increase the quality of the final products of the projects contemplated by Spcine Seed Money Public Fund. Each studio received a $10,000 award to support the development of a prototype. In addition, the creation of networks of contacts and actions was sought to stimulate additional private investment, allowing for the realization of expanded versions and more designed actions of the products made with resources from the public fund.

UX4indie is the solution to test your games, whatever stage of your project in the development phase, from the concept to the launch.

Our mission is to create easy, quick, and hassle free playtests for small video game studios to test their prototypes, demos, and games launched. Small studios have a limited budget, so Game UX tools can help you save and optimize your investment.

Our PlayTes bring out the interaction of players with their game or prototype as they first experience it. Use playtests to make project decisions based on the player’s actual behavior creating the best experience.

We also work with you to train your internal QA team, and we can allocate our guys to your project team through outsourcing.

We’re making tests with our base, testers inside your engaged community, or we can screen testers according to the needs, deadlines, and budgets.

We have a special bundle of services for long-term contracts with publishers, providing insights that can reduce investment risk.
